WHEELMAN II

COMPACT, PORTABLE MULTI-MIXER

WHEELMAN II | Model # 1105421 | 110V/60Hz 0.5 HP

WHEELMAN II GAS | Model # 1105426 | 3HP, Honda Engine

THE WORLD'S FINEST PORTABLE MORTAR, STUCCO, GROUT OR CONCRETE MIXER

The Wheelman II Poly Drum Wheelbarrow Style Mixer is built to tackle all types of projects and materials, such as mortar, stucco, grout or concrete and is the only mixer with a removable drum that can be loaded by one person in a small vehicle. Use it to mix, transport and then dump right to your work area. The poly drum is spun injected so that the plastic forming process is perfectly even and comes out perfectly round. The optional 360° Swivel Stand is a great add-on for an easy to dump solution.

1/2 h.p. 110v industrial grade motor with direct gear drive provides non-stop performance

Wheelbarrow pneumatic wheels

Aggressive paddles to mix fast and complete

5 cu ft poly drum with 3 cu ft output.

The available gas engine model is perfect when electric power is not available

SPEED

Mix mortar, stucco, grout or concrete in less than 4 minutes.

GAS POWER

Working on a jobsite without electrical power, no problem, the Wheelman is available with a 3 h.p. Honda engine.

POWER

The fully enclosed 1/2 h.p. 110v industrial grade motor with direct gear drive provides non-stop performance on any construction project. These mixers truly are contractor duty!

OPTIONAL 360° SWIVEL STAND

Wheelman stand is easy to dump and it swivels a full 360°

MINUTEMAN II

PORTABLE MULTI-MIXER

MINUTEMAN II | Model # 1126608 | 110V/60Hz 0.5 HP | Steel
MINUTEMAN II | Model # 1126632 | 110V/60Hz 0.5 HP | Poly

THE ORIGINAL BELTLESS GEAR-DRIVEN PORTABLE ELECTRIC MIXER.

It's quiet and easy to assemble making it perfect for indoor applications. The Minuteman has been used for the last 28 years to build block buildings, stucco houses, build patios, tumble rocks and even mix coffee beans. The "IMER Green" Minuteman is the highest performing, most reliable, and affordable small portable mixer on the market today. Choose a metal or poly drum.

PORTABILITY

In just a minute, the Minuteman or Wheelman can be "knocked down" into easy to load components. All this by one person, with no tools required!

MORTAR, STUCCO, GROUT, CONCRETE MIXER

Why do we call them multi-mixers? Because they are used for a wide range of material and calling them a barrel mixer just doesn't do it any justice.

Gearbox drive with oil bath enclosures produce smooth transmission from the motor to the barrel for effortless and quiet mixing. No exposed ring gears to chatter or to be a potential safety issue.

Mix mortar, stucco, grout, concrete or just about anything that you can think of to mix. You will find these mixers on New York City high rise construction sites down to the islands used for construction from start to finish. They are truly multi-mixers.

CONTRACTORS & PRE CAST SHOPS SPEAK UP

"I bought a gas powered Wheelman for a contract in NW Washington D.C. It easily mixed 330 bags of Sakrete (80 pound bags). We couldn't pump in ready-mix because this contract was located in a very sensitive green area. The Wheelman is a great piece of equipment and it's simple to clean!!!"

- Steve Cullen, Owner, Cullen Landscape, Washington D.C.

"The Workman 350 Honda powered mixers worked great building a radar tower installation on Manus Island, New Guinea. We were worried about whose mixers to purchase because when you build an installation on a deserted and mountainous island in the middle of the Pacific... you are asking for trouble."

However, the job went very well. The Workman 350 mixers ran non-stop while mixing up three 40' containers of bagged concrete. Nice job IMER!"

- Monty Apple, Owner, AB Associates, Pagosa Springs, CO

"IMER, this mixer is great. I thought it would dog mixing my mortar for small remodel jobs; no way! Great product."

- Mike Duke, Owner, Duke Industries, Boca Raton, FL
