

MARBLE RESTORATION KIT

MARBLE RESTORER

POLISHED MARBLE, TRAVERTINE, LIMESTONE

- REMOVES ACID ETCH STAINS.
- RESTORES SHINE ON POLISHED MARBLE, TRAVERTINE AND LIMESTONE.

WHAT IT'S FOR

- Restores acid etched polished marble, travertine and limestone.
- Perfect for restoring worn kitchen and bathroom countertops.
- Ideal for polished stone tables, stairs and window sills.
- Revives the dullness caused by everyday wear and tear.

ADVANTAGES

- A complete kit to remove small etch stains, smooth, polish and restore marble surfaces.
- Easy to understand, step-by-step, color coded application.
- The complete kit includes:
 - MARBLE ONE yellow metallic pad
 - MARBLE TWO white resin pad
 - MARBLE THREE blue resin pad
 - MARBLE SPONGE, white polishing pad
 - MARBLE SHINE, marble polish – 6.8 fl oz.
 - FORMULA MARMO, marble finishing polish – 8.5 fl oz.
 - Gloves

HOW TO USE IT

REPAIR: Wet the surface with water. Rub the surface in a circular motion, overlapping to cover an increasingly larger area: First with the yellow **MARBLE ONE** metallic pad, then with the white **MARBLE TWO** resin pad, and finally with the blue **MARBLE THREE** resin pad. Dry with a clean cloth.

POLISH: Apply **MARBLE SHINE** on the surface and polish with the **MARBLE SPONGE**. Remove any residue with a damp cloth and dry with a soft cloth. Lastly, polish with **FORMULA MARMO**.

The steps listed above are general indications; for detailed application instructions, carefully read the leaflet in the box.

Packaging:

30 Applications per kit
4 kits per box
