NEW Compact Masonry Saw

Clipper BBM Block Buster Mini - BBM158

new!

FEATURES / SPECIFICATIONS

The new BBM158 has the same compact, rugged frame as the BBM307; however, the difference is the motor.

The BBM158 has a heavy duty, totally enclosed, dual voltage 115/230V industrial motor typically found on larger masonry saws. The cutting head is designed to support the heavier weight of this industrial motor.

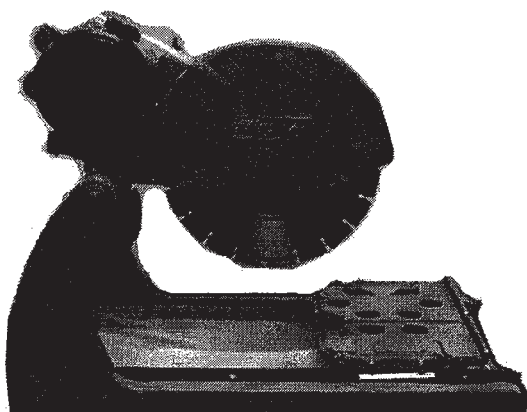

- Belt drive
- Motor with overload
- Wet or dry cutting
- Length: 31 1/2"
- Width: 18 1/2"
- Height Max: 32"
- Weight uncrated: 115 lbs.

BLOCK BUSTER MINI BBM158 COMPACT MASONRY SAW

Now the engineers at Norton bring you the next step in portable masonry saws, the BBM158. With many of the same qualities as the original BBM307 this new saw comes with a heavy duty, belt drive industrial motor. This totally enclosed, 115/230V motor is typically found on larger masonry saws and intended for rugged continuous use. The 14" blade capacity allows for a 5" cutting depth. Weighing in at only 115 lbs., the sturdy single piece steel frame of the BBM is light enough to be transported throughout the job site as well as up scaffolding. The standard garden hose water attachment, commercial stainless steel water pan, motor overload protection and genuine Norton diamond blade make this the best value on the market today!

Features

- 115/230V Belt Drive Motor
- Motor Overload Protection
- Garden Hose Attachment
- 3 Position Locking Head

Benefits

- Intended for rental or professional use
- Protects motor from electrical surge damage
- Wet or dry cutting applications
- 2 static positions for hands free cutting or 1 for plunge cuts
