

SPEEDY CART

THE LAST CART NEEDED TO GET THE JOB DONE

Convert your hand-held high-speed saw to a walk behind saw. The Norton Clipper SPEEDY CART™ is designed to work with the most popular hand-held high-speed saws to make easy work of any concrete, asphalt, or curb cutting job. Featuring precise depth adjustment, effortless rolling wheels, and ergonomic controls to make it a must have high-speed saw cutting accessory. The SPEEDY CART is easy to transport due to its compact folding design, built in tie down and lifting points. The SPEEDY CART is built to last with a durable long lasting all steel frame, modular design, ease of operation, and is the smoothest cutting accessory on the market today.

High-speed saw sold separately.

High-speed saw sold separately.

SPEEDY CART FEATURES

Advanced Design

Constructed with heavy-duty long life components and advanced design which creates a cart that allows for faster cuts, straighter cuts, less blade climb and the ultimate cutting experience.

Advanced Motor Adapter Plate

The SPEEDY CART is the world's first truly flexible high-speed saw cart with its optional advanced motor adapter plate system allowing the attachment of the Norton Clipper series and other popular high-speed saws to allow for the utmost utilization on the job site.

Steel Hub Wheels

The SPEEDY CART features steel hub wheels with real bearings for smoother rolling, straighter cuts, and easier operation than competitive models with plastic wheels and no bearings.
