A line of spacers for the professional which can choose versions with different heights, with holes for the passage of the adhesive, with fins for easy removal or to avoid the outcrop if installing with the traditional “mud-med” method, or even with the unique “Lego” system, which allows to fit a spacer over the other to get the desired

thickness. Of course, both for cross and “T” installation. In addition, three models (3 mm - 1/8” joint) for octagonal tile, “cassettonato”, lozenge, hexagonal tiles, “provenzale” tiles. To complete the offer, shimming wedges are available in two sizes, the largest with ergonomic grip design, large and knurled. Last but not least, expansion joints, profiles and floating floors supports.
