

SMOOTH FINISHING KIT FOR FRESH SILICONE

SILICONE FINISHING KIT

ALL TYPES OF SILICONE

WHAT IT'S FOR

- The SILICONE FINISHING KIT contains:
 - SILICONE REFINER Smooth Finishing Spray (24 oz).
 - SILICONE FINISHING TOOL to get perfectly smooth joints after silicone application.
- SILICONE REFINER shapes silicone sealing on smooth surfaces and flexible joints.
- THE SILICONE FINISHING TOOL completes the application with a perfect caulk line every time!
- SILICONE REFINER and the tool fill the joints, preventing air bubbles.

ADVANTAGES

- **RAPIDDRY TECHNOLOGY:** Fast drying action.
- Completely safe: Does not leave slippery residue.
- No more smoothing the silicone with your finger: SILICONE REFINER + TOOL help keep silicone joints hygienic.
- Excellent for all surfaces.
- Does not damage or corrode aluminum and steel trims.
- Safe for the installer and the environment.
- Use indoors and outdoors, ideal for floors and vertical surfaces.

HOW TO USE IT

READY TO USE. Once the silicone has been applied, before it forms a surface film, spray the product on the joint. Use the FILA Silicone Finishing Tool to complete the application. For excellent results on curved joints, FILA recommends spraying the silicone with **SILICONE REFINER** a second time and smoothing it again to level imperfections.

Caution: Check the compatibility of the product with the type of silicone used.

Storage temperature: between 41°F and 86°F (5°C and 30°C). Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).

- **LEAVES NO RESIDUE.**
- **SAFE FOR THE INSTALLER AND THE ENVIRONMENT.**
- **SEALS JOINTS FAST, NO SMEARS.**
